RAISE YOUR EXPECTATIONS

THE AICHI VERTICAL MAST LIFT. These compact and versatile machines deliver an innovative solution for your tight-fitting, high-reaching needs. They run longer and with precision travel that can't be matched by traditional DC or hydraulic drive systems. Thoughtful ergonomics and quality components keep workers productive and minimize maintenance costs for ultimate peace of mind.

AICHI VERTICAL MAST LIFT ADVANTAGES

AC DRIVE MOTOR:

BRUSHLESS MOTOR DESIGN REQUIRES LESS MAINTENANCE AND DELIVERS GREATER POWER AND LONGER BATTERY LIFE.

► ZERO-DEGREE INSIDE TURNING RADIUS:

Tight turning for intuitive, easy operation.

► DURABLE CONSTRUCTION:

Heavy-gauge steel panels and powder-coated paint make the AICHI Vertical Mast Lifts built to last.

► PLATFORM EXTENSION:

An additional 15 inches of platform length allows operators to reach across fixed objects for greater accessibility and flexibility.

► TILT ALARM:

Alarm and indicators alert operators to unsafe working conditions and platform movement is limited until proper operation is restored.

ANTI-ROLLBACK FUNCTION:

WHEN A STEEP GRADE IS ENCOUNTERED THE BRAKE IS APPLIED TO PREVENT THE LIFT FROM ROLLING BACK DOWN A RAMP WHILE IN USE.

► 3-STAGE TELESCOPING MAST:

Mast with hydraulic cylinder and chain drive provides smooth operation and exceptional stability.

► EASY BATTERY ACCESS:

Quickly access batteries via the service panels on both sides, even with the platform lowered.

► UPPER CONTROL BOX:

Upper platform control box offers remote use for maneuvering the truck in tight spaces. Horn, battery discharge, and tilt alarm indicators ensure ease of use.

RISE AND SHINE

The thoughtful design of the AICHI Vertical Mast Lift puts you in control and grants everything you need to get the job done quickly and efficiently. The ergonomic control handle and smooth AC drive motors allow for precise positioning of the lift in tight quarters. A standard 110V power outlet allows for convenient use of power tools and battery chargers. And an intuitively designed platform extension provides an additional 15 inches of working space, making it easier to safely reach across objects.

MAINTENANCE MADE EASY

Quality components such as the Toyota-designed and built motor controllers help to reduce your overall maintenance costs and improve uptime. The no-tools required, easy-access service panel covers and hydraulic oil level indicator make performing routine maintenance a breeze. Troubleshooting and programming is also effortlessly managed through the multi-function display on the lower control panel.

STANDARD FEATURES

PERFORMANCE

- 24 volt AC drive system
- Improved running time over DC or hydraulic drive motors
- Full 90 degree steering angle
- Zero degree inside turning radius
- Anti-rollback function
- Roll-out platform extension deck
- 30% gradeability
- Reduced speed with platform elevated
- Proportional drive control
- Toyota motor controllers with CAN-bus communication
- Controlled descent function
- Emergency lowering valve

BODY/EXTERIOR DESIGN

- Tilt alarm
- Pothole protection system
- Horn & travel alarm
- Solid non-marking tires
- Steel construction on all panels
- 110V AC power to platform
- Powder-coated paint
- Spring loaded access gate
- Lanyard attachment points (2)
- Machine tie downs (front and back)
- Upper control box with:
 - Joystick control with steering switch
 - Tilt alarm indicator light
 - Horn button
- Battery discharge indicator
- Detachable control cable
- Emergency Power Off (EPO)
- Remote off-truck operation capability
- Upper control lever guard
- Error indicator
- Dual LED flashing beacons

SERVICEABILITY

- LCD multi-function display with:
 - Battery discharge indicator
 - Hour meter
 - Error code display
 - Battery charging status indicators
- Brushless AC drive motors
- High-efficiency battery charger
- Cord error indicator
- Four 6 volt, 225AH deep cycle batteries
- Hydraulic oil level indicator
- No-tools required, easy-access battery covers

OPTIONAL EQUIPMENT

- LED work lights
- Fire extinguisher bracket
- Tool tray
- Parcel tray
- Fluorescent tube holder
- AGM maintenance free battery
