# TOYOTA GENUINE PARTS

**DURABILITY IS BUILT INTO TOYOTA 360 SUPPORT.**

Just like our forklifts, Toyota 360 Support runs on Toyota Genuine Parts. Our technicians install Toyota Genuine Parts to maintain the high-caliber quality, reliability, and value that are the reasons you bought a Toyota in the first place.

You're protected with an industry-leading two-year parts warranty – that's twice as long as our competitors. And with parts available for next-day shipping, your business's downtime is kept to a minimum.

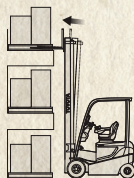

## SYSTEM OF ACTIVE STABILITY™ (SAS)

Minimizes the likelihood of tip-over to help reduce the risks for operators and the people around them.

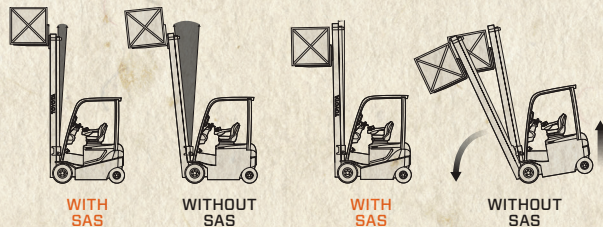

### AUTOMATIC FORK LEVELING

Adjusts the mast so forks are level with the ground for ease of retrieving pallets at high levels.

### ACTIVE MAST FUNCTION CONTROL

Decreases the chance of spilling unsecured loads or tipping the forklift backward.

# INNOVATION

ENHANCING YOUR OPERATION.

## SEnS+™

smart environment sensor plus

We understand the importance of maintaining a highly productive operation, all while keeping your operators comfortable and secure. Products, like Toyota's proprietary Smart Environment Sensor Plus™ (SEnS+) pedestrian detection system can assist operators in identifying a pedestrian or object behind their forklift. In addition to the system notifications, SEnS+ has industry-first features including dynamic zoning, adjustable truck slow down and backward movement prevention.
